

A Visit by Fellow Juniatics Rich '64 and Marilyn '65 Morgan
to the Summer Home of Carl '65 and Penney '65 Bush

We had a great time, but ate way too much seafood and other items. Even though it was in the nineties and humid, they don't have air conditioning for the constant sea breeze is an automatic cooler. Sleeping at night with the sound of the fishing boats across the bay and the distant foghorns was indeed a pleasure; very different from the crickets who chirp in our "mountains" of NJ.
